

# PH regulators

## Hydrochloric acid, pH regulator drinking water

- **Function**
- **Format**
- **Technical sheet**
- **Evaluations**

- **Function**

PH reducer in the water pre-treatment stage to optimize flocculation / coagulation.

Final correction of the pH of the water to avoid the formation of scale or corrosive effects in the network.

Product suitable for use in the treatment of water intended for human consumption in accordance with Order SAS 1915/2009, of July 8, on substances for the treatment of water intended for the production of water for human consumption. It complies with the UNE-EN 899 (2009) standard.

Exclusively for professional use.
